

Please do not allow LPFM stations to take precedence over current FM translators because I am a regular listener to KLOVE, heard locally at 91.1, and this would potentially knock them off the air. KLOVE provides commercial free, edifying music that I can have on anytime, anywhere, with anybody. Now when I am in an environment where commercial radio is on, I realize how spoiled I am to have KLOVE. Thank you for your consideration and please keep KLOVE at 91.1 in the Denver Metro area.
